How the Stock Market Works

Companies Need Money → They Sell Shares

When a company wants to grow (expand business, develop new products), it needs money.

Instead of taking loans, the company sells parts of itself called **shares** to the public.

People like you (investors) buy these shares hoping:

- ✓ The company will grow
- ✓ The share price will increase
- ✓ You will earn profit

▶▶▶ What is Work Crypto Trading

Crypto Trading means **buying and selling cryptocurrencies** (like Bitcoin, Ethereum, etc.) to make a profit.

Just like the stock market, the price of crypto keeps **going up and down**, and traders try to earn money from these price changes.

You need a crypto exchange to trade, such as:

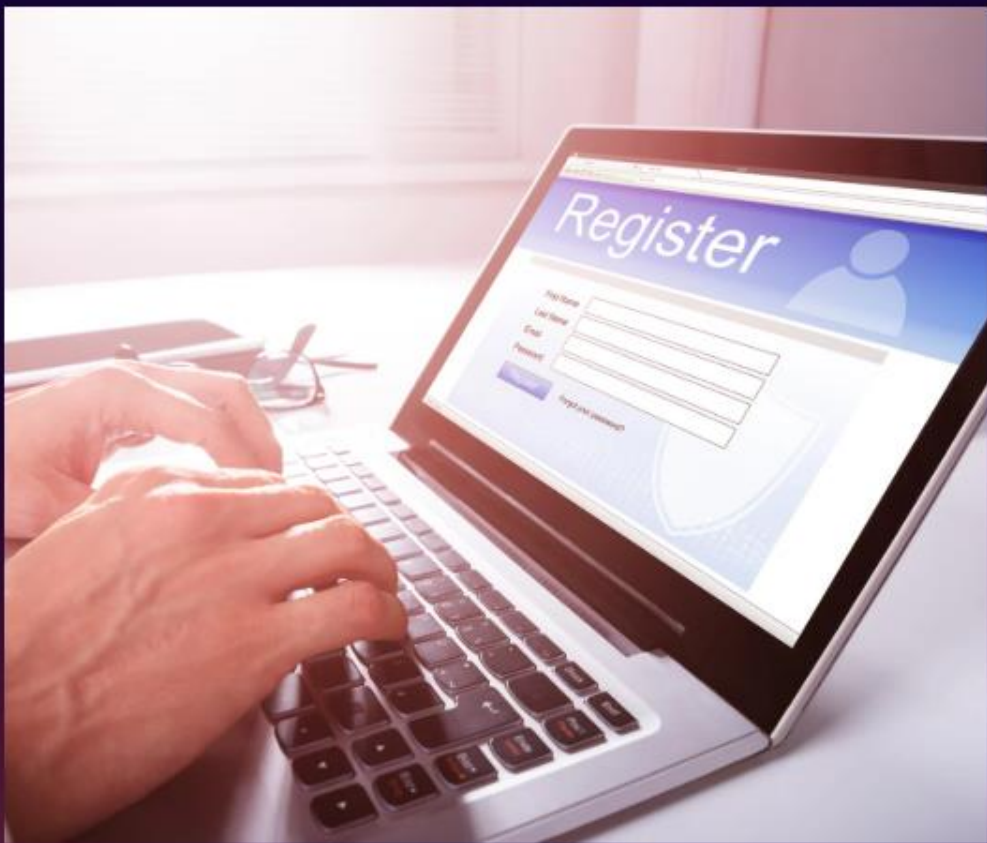

- ✓ Binance
- ✓ Coinbase
- ✓ KuCoin

**Cryptocurrencies
Are Digital Money**
